Practical Assignment – 3e

1) If we can know that God exists, then we can know God by experience or we can know God by logical inference from experience. If we can't know God empirically, then we can't know God by experience and we can't know God by logical inference from experience. If we can know God empirically, then "God exists" is a scientific hypothesis and is empirically falsifiable.

Predict the conclusion from the statements using logical code

2) Moral judgments express either truth claims or feelings. If moral judgments express truth claims, then "ought" expresses either a concept from sense experience or an objective concept that isn't from sense experience. "Ought" doesn't express a concept from sense experience. "Ought" doesn't express an objective concept that isn't from sense experience.

3) Express this in terms of predicate logic

a) Each man in the room speaks at least two languages

b) Every teacher in Texas likes either Otto or Johann
